

**Abstract:**

Maintenance and conservation of historical buildings is a very important duty to transfer their cultural and social messages to the future generations and this is not unbelievable for anyone. In this research we are trying to introduce the importance of one historical building of West Azarbaijan of Iran. Ourmia bazaar is one of the most important bazars in Iran. There are 5 hammams in this bazaar that Akhound is one of them. This hammam is from the Qajar period and it is one of the most beautiful of hammams. But this hammam is abandoned now and this may damage it. We are trying to rehabilitate this hammam and save it from danger of death.

In this research we used from diverse sources like: pictures, maps, conference, some softwares like: AutoCAD 2007, Google SketchUp and....

The most important outcomes from this research are that this building is one of the most important historical buildings in this site and it should be saved. And we have to plan for rehabilitation of it and transfer it for our future.
